6:00 A. M.	Fast Line
6:30 A. M.	Fast Line
7:00 A. M.	Fast Line

JOHN E. SIMPSON, General Superintendent.

Our Rev. L. H. Long will preach in the Presbyterian church next Sunday—morning and evening.

Correction.—Rev. Kennedy, whose death by suicide we noticed last week, was not a brother of Rev. O. Kennedy, as stated.

Found.—On the McComb road, west of Findlay, a small sum of money, which the owner can get by calling on A. C. Worden, describing it and paying for this notice.

Sermons.—The parties who favored us with such excellent music last Friday evening will please accept thanks. Such compliments are not unexpected, though the parties may be unknown.

The annual session of the Teachers Institute for this county commences its session next Monday and we hope to see a full attendance of the teachers and friends of education. A revival in this direction is greatly needed.

Mr. S. R. Gray, of Marion township, has laid on his table some very nice specimens of petrified animal remains, found in line-stone, in digging a well on his farm, in Marion township. They are a great curiosity.

No Services.—There will be no services in the English Lutheran church next Sabbath as the Pastor, G. W. Miller, will be in attendance upon the semi-annual conference of Wittenberg synod, at Van Wert, O.

A Good Move.—An excellent pavilion is in process of construction from Main Street back on Railroad, to the entrance of Wheeler's Hall. We are glad to see the enterprise manifested since the removal of the First National Bank to this corner.

Let every Republican in Hancock county so arrange his business that he can be at home to vote on the 5th, and if possible, spend the day in seeing that every Republican vote is polled. Ask your neighbor to do the same. This will insure a Republican triumph. No rest, men, until victory is assured.

MR. CHAS. W. MYERS has sold his residence on West Main Street to Dr. Thomas Ballard, of Benton, who will remove to Findlay next week and continue to practice his profession. We are glad to learn that Mr. Myers will not be lost to our town by the change.

JOSEPH SHAFER, Esq., of Cass township, who has just returned from a visit to Kansas, has left at our office very fine specimens of Kansas corn and wheat products.

MR. EPHRAIM JOHNSON, in our absence, left in our stead a most interesting pamphlet, a Hancock county production.

MR. A. E. HOON, who sold his farm one mile east of Findlay, springing Mr. Joseph Ford, had a sale last Monday, and left Tuesday morning on his way to Jackson, Miss., where he expects to resume his occupation of mill maker. We are sorry to lose Mr. Hoon, but hope the change has made him for the best.

Filed.—On yesterday the Lake Erie and Louisville R. R. Co. filed their second mortgage for the issuing of bonds for the general equipment of the road, in the Recorder's office of this county. It amounted to \$10,000, in aggregate, and was in favor of the Union Trust Company of New York City.

Notes.—The season for hunting quails, etc., commenced on the 15th, and those going into that business will do well to read the notices in our advertising columns. Several of our farmers have felt that the price of quails have been treacherously low, and are determined to put a stop to it. Penalties should at least be asked by sportsmen, before entering enclosures.

We are glad to learn that Mr. Jno. D. Wagner, formerly of this county, but who has been for three years past engaged in the grocery and provision business in Circleville, has bought the farm of Mr. Geo. Sebastian, of Delaware township, and will soon again become a citizen of Hancock county. Delaware gains an excellent citizen by the operation, and we presume Mr. Sebastian will remain within her borders.

Improved Wheat Thresher.—We have been handed a circular of a Patent Wheat and Timothy Thresher, patented by John A. Lutz, of Crawford county, which will be of interest to our farmer friends. The adjustment of the machine for cleaning Timothy seed can be made in one minute. The extra cost is but nominal, as only two extra blades are required. The price of the thresher is \$200, and \$100 for a machine is \$200. G. W. Slick, of Jackson township, is the agent for this county.

Ask for the Jeffersonian.—Subscribers for our paper at the Findlay post-office should bear in mind that they should ask every week for the JEFFERSONIAN. There are nearly 700 papers distributed through this office, and the post-master cannot always tell who are subscribers. Therefore ask particularly for the JEFFERSONIAN, and if you do not receive it regularly, make it known at this office. We will regularly send you to receive the paper regularly.

POLITICAL-LOCAL NOTES.

The grand Greeley and Brown team across Main street kisses the breech no longer. The Demo-Liberal, or the Liberal Democrat, or whatever you call them, look mortal and incoherent. The Demo-Liberal, and "sweet fields, arrayed in living green" hang their heads on the willows, and like Rachel, weeping for her first-born, refuse to be comforted. "Uncle Ben" sits at the receipt of custom, and Charles Foster writes M. C. after his name with impunity. Sloane has gone back to his congenial occupation of grinding the faces of those who are compelled to ship over "my road." No "intakes" from the county treasury—no more promises of government appointments—no more remittances of \$50 "dead-head" by Rush R., to the pay for services rendered. In the mean time a new magazine is in press and to appear shortly, in the first number of which a startling array of talent is promised. Blackford will tell "What I Know About Keeping on both sides of a Railroad Road," a sequel to "getting on Both Sides of a Defalcation Suit." M. D. Shaffer contributes "What I Know About Eggs as a Means of Political Grace." Mangen furnishes a satire on "What I Know About Light Artillery," with an illustration of a new view of the formidable part of the breeches that men have evolved since the coming to and from Sloane's basket new "eggs." Fields will write up "A Narrow Escape from being Probate Judge," or "Silly Leaves from the Diary of a Liberal Republican." Joe Guizulavich furnishes "Silly Letters from an Anxious Candidate for Congress." Whether this periodical to be issued from the Courier office or not, we have not learned.

THE TEACHERS' INSTITUTE.

Every teacher in the county should feel an interest in our Annual Institute, and should do whatever is in his power to make that gathering of the teachers a success to the profession.

We often hear the complaint made that the instruction there given is not adapted to our ungraded schools. There has been too much ground for this objection. As our instructors have all been connected with graded schools, it is natural for them to look upon the subject of education from that standpoint. They should be reminded that nine-tenths of the teachers of the institute are from the ungraded schools, and although they may have some curiosity to know what may be accomplished by a teacher with one grade of schools, yet they cannot afford to lose a week's time and incur the necessary expense, if they cannot acquire some more practical knowledge than this. Let our teachers insist that the instruction and exercises shall be such as may be of practical benefit to our teachers in the ungraded schools, and I do not think the Executive Committee will disregard that demand.

A method of teaching may be of great importance to the teachers of Cincinnati, Cleveland and Toledo, or even of Findlay, and yet be worthless to the mass of the teachers of our county, because it cannot be used in our ungraded schools. The teachers of the county should feel that this Association is in their hands, and if the exercises are such as suit a majority of the teachers, they themselves are to blame. Let every teacher in the county be present at our Institute next week. The services of some of the best educators of the country have been secured. Let us make the coming Institute one of the best ever held in one county.

HEART-RENDING APPEAL.

O sister, come and hear my prayer, While I sit down to rest, For they never will be lost.

TEACHERS' INSTITUTE.

The Hancock County Teachers' Institute will commence its session, next Monday forenoon, the 28th inst., at 11 o'clock, in the Findlay Union School Building.

It is hoped that all proposing to attend, will be present, as that work will commence promptly at that time.

Afternoon sessions commence at 1 o'clock precisely.

Public evening lectures will be delivered as follows in the Union School Hall, commencing at 7 o'clock excepting upon Thursday evening, when the Lecture will commence at 8 o'clock.

Monday evening, Rev. J. F. Reinmold.

Tuesday evening, Prof. John G. Remond.

Wednesday evening, Thos. W. Harvey, State School Commissioner.

One-half the people cannot take Castor Oil from its terrible nauseating taste, and recoil in the throat. The Castoria prepared by Dr. Pitcher is purely vegetable, perfectly harmless, pleasant to take, and more effective than Castor Oil. It does not distress or grip, but regulates the system, and operates when all other remedies have failed. It acts like magic for Stomach Ache, Constipation, Flatulency, Cramp and Worms. It contains neither Minerals, Morphine nor Alcohol. Its soothing, quieting effect, produces natural sleep, and particularly adapted to crying and teething children.

No article has ever met such universal endorsement by the Physicians as this more Bitter Pills, Nauseotic Syrup, Griping Paragoly, Sickening Oil, The Castoria, or any other medicine.

If you want a nice bowl, call on Bashon, Winters & Co.

The Courier says that some one attempted to kill Justice Greeley at Sandusky, and takes as a task for not denouncing the act. Perhaps we have been a little lax in the matter. We will try to make amends. And convince those who would strike at the grand old man, or throw clubs at the old lady's tombstone. If he was a Democrat, he would throw eggs at a Democratic procession and then blame it on Republicans.

PHOTOGRAPHY.

A visit to a First Class Studio & Live Company and Good Work—A word to the public about Photography.

By invitation of Mr. C. H. Langhorne, the accomplished artist having charge of C. E. Seymour & Co's Photograph Rooms, we spent a short time, a few days since, looking through his studio, and examining his work. This company has been in operation but three months, and already they have established a reputation for the excellence of their work. They secured a first class artist, and like sensible men, told the people so through the medium of "Printer's Ink." Hence their success is but a natural result of good work and liberal advertising. But to our visit.

We were forcibly struck with the life-like appearance of the photographs exhibited to us. They seemed to stand out in relief from the card, and had not that dead, sunken look so often met with in cheap work. They were well defined; being strong and vigorous, yet free from harsh lines or contrasts. Nearly all of Mr. L's work is made from retouched negatives, which he makes in his studio. By means of this process all imperfections, such as freckles, etc., are removed, while the likeness is retained. We were shown specimens taken from the same negative, before and after retouching, and we were free to confess that we would not have noticed so much difference could exist in pictures taken from the same negative. For the small difference in price—50 cents on the half-dozen—we think no one would hesitate a moment in choosing between the two.

We noticed, also, several large pictures—half life-size, and several smaller ones. Two former, finished by a lady at Georgetown, were beautiful. Among them we recognized our fellow townsman, C. E. Seymour and lady, and certainly no improvement could be made in these. And the other retouched picture that "they were the finest specimens of the art ever exhibited in Findlay" is evidence that we are not alone in our opinion. They are as good in all respects as oil painting, and they are not so high priced. And, by the way, we may mention that good quality of oil work as can be procured, and they prefer it.

But we advise our readers to go and examine for themselves and we think they will agree with us that Mr. L. is a first class artist, and that the company of that kind of work services for our people is deserving of encouragement and patronage. Mr. L. and the company for which he does business, are laboring to give the people first-class work for a fair price, and the public will find it to their interest to sustain them in their effort.

BOOKS, PERIODICALS, &c.

LOCKE'S DOLLAR MONTHLY.—Messrs Locke & Jones, Toledo, Ohio, Publishers of the Toledo Blade and American Farm Journal, announce that they will issue, November 1st, the initial number of a new Literary Magazine to be called Locke's Dollar Monthly, with Mr. D. R. Locke (Nashville) as editor. The new Monthly will be in character up to the standard of the best four dollar magazines and will contain forty-eight pages.—The object is to put the best literary and scientific matter in the hands of every family. The first number will contain a poem, "61-71," by Mr. D. R. Locke, resembling in character the poem "Hannibal Jane," which appeared in Harper's Monthly last October. He will also write for the Magazine characteristic sketches and stories, (ignoring politics), and the best authors in the country will contribute essays, sketches, stories, poems, &c. The Magazine will be mailed free to all subscribers, at the rate of one dollar per annum. All whose names are received before November 15th will receive the Magazine free for two years for the one dollar. Locke & Jones, publishers, Toledo, Ohio.

THE GREAT CAMPAIGN WORK.—We have just received from those wide-awake publishers, Messrs. E. Hamann & Co., Cincinnati, a copy of their great "Campaign Chart for 1872." It is brimful of very valuable information, showing at a glance, not only the political, but also the economic history of the country for the past fifty years.

In addition to the statistics, etc., of a political character, which are exceedingly full and complete, this *multum in parvo* contains a tabular exhibit of the population of the U. S., by States, at each census, from 1790 to 1870; the comparative rank of the several States, and some other interesting and instructive features; the leading productions of agriculture in each State and Territory, from the last census, giving the amount of over twenty of the principal products in each State, together with much other interesting agricultural statistics, according to the census returns of 1870, together with other important matter.

A large portion of the agricultural statistics have never before been published. From the foregoing items, it will be seen that the chart, besides serving a hundred useful purposes during the campaign, is *permanently valuable*.

This Chart is handsomely printed, colored, and varnished, and mounted, like map, on rollers. It is a real ornament to any room, or office, and ought to stand fast every where.

It is sold through agents, and published by E. Hamann & Co., Cincinnati, to whom all applications for agency should be addressed.

Clothing for men and boys cheaper than ever at Bashon, Winters & Co.

This special attention of our readers is directed to the advertisement of the Cincinnati Gazette, which appears in another column of this paper. The Gazette is the leading Republican newspaper west of the mountains, and for news, agriculture, politics, literature, commerce, and all other subjects of interest, at home or abroad, it cannot be excelled.

NEIGHBORHOOD NEWS.

U. F. Cramer, Esq., has been appointed Probate Judge, to fill the vacancy occasioned by the death of Judge Johnson. We notice in this connection, that a subscription is being raised to erect a suitable monument over the grave of Judge Johnson.

The Review says that horse thieves are plying their vocation about Findlay.

The justification at Findlay over the election of Hon. Chas. Foster, was a "big thing."

Al Barnett was in Findlay on the 23d inst.

There were 933 fat hogs shipped from Findlay in two days last week.

The official Democratic majority in Seneca was 591; Sloane's majority was 257; Gideon T. Stewart, Temperance candidate, polled 28 votes for Congress in the county.

ALLEN COUNTY.

The Democratic majority in Allen county on Secretary of State, was 511. On Probate Judge, it was divided down to 62.

John Finkner, near South Warsaw, died October 9, from the effects of poison, taken by mistake. Some time ago he purchased some arsenic to kill crows that were taking up his corn, and not using it, has since been carrying it in his vest pocket. On the evening in question he got some medicine, and when he got home laid both papers together. When he mixed the medicine for him, he got the wrong paper, and gave him the arsenic instead of the medicine he wanted. He died in a few hours.

There were 1051 votes cast in Lima on the 8th inst.

A little girl named Lettie of Benton, aged seven years, while feeding milk in a cage, will, had three of her fingers so badly crushed by being caught in the cylinder, that they had to be amputated.

Another, a daughter of Andrew Wares, of Madison Twp., had her hand so badly crushed in a cane mill that amputation was necessary, the arm being taken off above the elbow.

Deer Slaying.—Messrs. Gribben, Siddall, Ramsey, Erb and Falk took a little trip into Henry county the first of the week, and returned with a fine buck for their pains—a large and fat animal of the deer kind, which we have ever seen. Every chap that has a shot gun has an attack of the buck-lug—no anticipation.

"Bones" Tread, the great Tammy trial, has been again bound over for trial on several indictments, and will, perhaps, be punished.

Local Business Notices.

The Burdett Organ.

Prof. Salbach has been appointed agent for this well-known instrument, and those wanting a bargain in this line should call with him. He also sells several of the very best styles of Pianos manufactured, which he warrants to give satisfaction in price and quality.

N. B.—An agent wanted to travel and sell instruments on commission or salary.

Blacksmithing.

Messrs. Ramsey & Mooney have fitted up a shop on East Railroad Street, opposite Cox's Livery Stable, where they are prepared to do all kinds of Blacksmithing. They pay particular attention to horse shoeing. The public are respectfully invited to call with them.

How To Go West.

This is an enquiry which every one should have truthfully answered before he starts on his journey, and a little care taken in examination of Routes will in many cases save much trouble, time and money.

The C. B. & P. R. R. running from Burlington, through Gallegos to Burlington, and the "B. & W. R. R." running from Indianapolis through Bloomington to Burlington, have achieved a splendid reputation in the last two years as the leading Passenger Routes to the West. At Burlington they connect with the B. & M. R. R. and form the great Burlington Route, which runs direct through Southern Iowa to Nebraska and Kansas with close connections, and passengers starting from Hancock County, on their way westward, cannot do better than to take the Burlington Route. This line has published a pamphlet "How to go west," which contains much valuable information; a large correct map of the Great West, which can be obtained free of charge by addressing the General Passenger Agent B. & M. R. R. Burlington, Iowa.
